PHOTOVOLTAICS FEASIBILITY STUDY & PLANT DEVELOPMENT

Independent PV consultancy:
Cost savings through early-stage planning.

Let's See Your Benefits?

You receive frank and independent advice from us. We analyse your options to determine under which circumstances the construction of a PV system is as profitable as possible. You will find a clear overview of your planning, future investments and profit. We guarantee you a fast realisation of the order, starting from as early as 5 working days.

Let's See Who We Are?

Varian Energy GmbH is a company founded in 2022 and based in Neuss. Our team was formed from employees of successful EPC companies and has many years of experience in planning, engineering and project management of industrial PV rooftop systems with outputs from 300kWp to 8 MWp nationwide.

Our Services

- 1 Visit of the construction site
- 2 Report on the current situation and the necessary adjustments
- 3 Planning the optimal roof layout
- 4 Single Line Diagram (SLD)
- 5 Yield calculation with PVsyst Simulation
- 6 Cost estimation for an EPC contract
- 7 Calculation of amortisation
- 8 Enquiry to the responsible network operator
